MEMORANDUM FOR: Admiral George W. Anderson, Chairman
The President's Foreign Intelligence
Advisory Board

1. I have had an opportunity to read Sam's recommendations. (The paper is returned herewith.) Their general thrust is certainly in line with some of my own views. Before I can be more specific in commenting on them to you, however, I believe it would be useful to both of us if one of my senior officers could sit down with Sam and explore in some greater detail the specifics and the implications of his recommendations. I would then be in a much better position to give you my considered judgments.

2. If you find this suggestion useful, do let me know and I'll nominate someone who can work with Sam on the matter.

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: PFIAB Meeting, 9-10 September 1971

1. Jerry Burke confirmed that the Board will meet on 9 and 10 September and that there will be a session with you. Originally it was hoped the two days would be focused largely on economic matters, but there will now be a Japanese trade delegation here at the same time and a number of the American economic figures will probably be unavailable. The subject matter is therefore still under consideration.

2. May I remind you that you were considering raising the following two topics with the Board when you see them:

a. The Harry Cochran paper on the CIA performance on Vietnam over the years;
